ODE. SUNG BY THE CONSTITUENTS OF JOHN QUINCY ADAMS. On his return from Congress,

September 17, 1812. WRITTEN BY JOHN PIERPONT. Nor from the bloody field. Borne on his battered shield, By foes o'ercome, But, from a sterner fight, In the defence of Right, Clothed in a conqueror's might, We hail him home.

Where Slavery's minions cower Before the servile power, He bore their ban; And, like an aged oak, That braved the lightning's stroke, When thunders round it broke, Stood up, A MAN.

Nay, when they stormed aloud, And round him, like a cloud, Came, thick and black, He, single-handed, strove, And, like Olympian Jove, With his own thunder, drove The phalanx back.

No leafy wreath we twine, Of oak, or Isthmian pine, To grace his brow; Like his own locks of gray, Such leaves would fall away, As will the grateful lay We weave him now. But Time shall touch the page

That tells how Quincy's sage Has dared to live, Save as he touches wine, Or Shakspeare's glowing line, Or Raphael's forms divine, New life to give.

Messrs, Naylor & Ewbank inform your Committee that Messrs. Naylor & Ewbank inform your Committee that they are willing to furnish the Corporation of the City with their timed leaden pipes, which are thus recommended by chemists of high reputation, at the same rate as the ordinary leaden pipes, the use of which they all unhesitatingly condemn. They would furnish them at from eight to nine cents per pound—in no case at more than nine cents per pound. From all the information obtained, and all the reflection bestowed by your Committee, upon a subject of no little importance, as connected with the health and comfort of our citizens, your Committee have arrived at the followlittle importance, as connected with the health and connected of our citizens, your Committee have arrived at the following conclusions: That the use of the ordinary leaden pipes for the conveyance of water, particularly when as pure as the Croton, is decidedly dangerous, and therefore ou th to be avoided. The danger would be less where the pipes are be avoiced. The danger would be less where the pipes are small in circumference and in dady use, and greater where there is more extent of surface, and they have been permitted to remain unused for any considerable space of time.—
The internal coating of tin will be a secure pretection against the oxidization of the lead. The tinned leaden pipes of the petitioners are altogether superior to the ordinary leaden pipes, and deserving of public patronage.—
Your Committee therefore recommend that these tinued leaden pipes be adopted for the conveyance of the Croton water into the mubic buildings, in preference to the ordinawater into the public buildings, in preference to the ordina-

MPORTANT NEWS from Providence —JAYNE'S EXPECTOMANT TRIUMPHANT!—A Card—I give the public the following facts, that all interested may be benefited by the operation.

I am sixty-four years of age; have been for four years scriously afficied with the asthma, have tried several physicians, and taken many "certain" cures of great expense and cians, and taken many "certain" cures of great expense and without any essential advantage. For two years I was not able to pass the whole of a night in my bed. On consulting Dr. Wadsworth, of this city, about my case, he advised me to take Dr. Jayne's Expectorant. This medicine operated as he told me it would do. I have taken five bottles of it, and consider myself in a manner cured by it. I can now lay confortably all night; am free from the tightness of the lungs and weakness of the stomach, which so dreadfully distressed and reduced me. In short, life had become fairly burdensome to me—now I enjoy it, though I am not entirely free from other infirmities attendant upon old age. tirely free from other infirmities a treatant upon old age.

best and most successful salve ever used for inflammatory diseases of the eye. In cases where the eyelids are very much inflamed, or the ball of the eye thickly covered with blood, it operates almost like magic, and removes all appearance of disease after two or three applications.

In Dimness of Sight caused by fixed attention to minute objects, or by long exposure to a strong light, and in the weakness or partial loss of sight from sickness or old age, it is a sure restorer, and should be used by all who find their eyesight failing without any apparent disease.

This Balsam has restored sight in many instances where almost TOTAL BLINDNESS, caused by excessive inflammation, had existed for years. Inflammation and soreness caused by blows, contusions, wounds on the eye, or by extraneous bodies of an irritating nature introduced under the eyelids, is very soon removed by the application of the Balsam. Harlem, July, 1841.

Messrs. D. Sands & Co.—Gents: From motives of humanity I am prompted to inform you that a few applications of your 'Roman Eye Balsam' have made a perfect cure in the case of my aged mother, who has suffered under a most painful inflammation of the eyes for twelve or fifteen years.

Physicians have given up the case as hopeless on account of

painful inflammation of the eyes for twelve or litteen years. Physicians have given up the case as hopeless on account of the patient's age, but by the blessing of Heaven, your remedy has verified the adage. 'While there is lite there is hope.' Yours most gratefully, R. Hoyr. Mrs. Davis, No. 77 Essex-street, has been cured of inflammation of the eyelids and weak eyes, of years' duration, by using only one jar of the Eye Balsam.
